

# Moving Case Data in Forward Motion

**NCT**

**CaseWorks™**

Advanced Document & Processing Management  
for Health and Human Services Teams

## People

Empower staff and the citizens with portal and mobile access, secure collaboration, and less paperwork.

## Process

Reduce risks through standardized document workflows and eliminate email, shared drives, and manual routing.

## Performance

Increase throughput, reduce backlog, and improve the citizen experience and service delivery outcomes.

## Purpose-Built for HHS

CaseWorks is the system of action for county and state HHS agencies, integrating with your existing Case Management System -preserving the system of record while driving document execution, automation, and throughput.

## What CaseWorks Delivers

CaseWorks transforms document-heavy processes into secure, automated workflows - reducing administrative burden, staff burnout, and cost.

- Integrates with state systems
- No duplicate records
- No IT disruption
- No system replacement
- The companion application

- Automated document routing
- Secure portal upload & eSignature
- Mobile access for field staff
- Fast case movement across departments

1,536 hours saved yearly

720 hours saved yearly

3,000 hours saved yearly

Less chasing  
paperwork. More  
advancing  
outcomes.
